U.S. Senator Charles Schumer Keenly Spoke at Sustainable Long Island Conference on Collar Energy

Over the past three days, U.S. Senator Charles "Chuck" Schumer has been finding common-sense solutions to the state's energy issues and has been tireless in his efforts to promote growth as well as success for Long Island.

In his remarks at Sustainable Long Island Conference, June 4th, he was highlighting efforts to promote growth as well as success for Long Island:

- Long Island Downtown
- Outstanding EPA \$200 million Homestar Act
- Energy Efficiency and Grants
- Long Island Green House
- Glen Cove Ferry Terminal
- Calverton Rail Project
- Sewer Grants
- Brookhaven Lab

Senator Schumer said about the conference, "without people and organizations like Sustainable Long Island, our local communities would not be able to move forward today."

"Smart growth and clean energy are the keys to Long Island's future," he added. "And, because of the conference, we're on the cusp of making Long Island clean energy jobs."

In conclusion, Senator Schumer quickly becoming an economic jobs. Sustainable Long Island job getting us to this point. Working with Sustainable Long Island will be a powerful legacy." ■
